

Dear Presidents, dear Secretary General, dear colleagues:

As you probably know we have finished our V Young European EuroDefense Conference, held in Toledo between 14th and 20th July 2013, organized by ED-España, with the support of ED-Portugal.

It is our pleasure to inform you that this has been a great success. The program was fully developed and the level of Lectures and Round Tables very high. The whole surrounded by a very interesting Visits' Program.

The number of participants (70 from several countries) is acceptable enough but it would have been desirable to receive them from all EuroDefense Associations.

The participants were very deeply interested in all activities, following them with a high level of attention and pro-active participation during the question periods.

As it was foresaw, all participants were distributed in ten different Working Groups to deal with the five different Topics. In the annex you can see the WG distribution, topics and the results of their works. We suggest you to read these works and, if you consider convenient, to make a proposal to send some of them to EU authorities.

We send you also the result of a Questionnaire, filled up by them the last day, where you can find their filling about the Conference results.

Summing up, we are very happy with the results we have gotten and we think that as EuroDefense net Association we should congratulate us for having achieved the aims of the V Young European EuroDefense Conference.

We propose to include in the Agenda of the next October Presidents Meeting in The Netherlands an exchange of comments about this V YEEC.

The members of EuroDefense-España and our colleagues of EuroDefense-Portugal are very happy with the outcome of the event in Toledo as we think we have achieved the goals of the V Young European EuroDefense Conference (V YEEC). Thanks to all of you that have supported our efforts.

Warm regards

Arturo Fernandez (President of EuroDefense-España)
