Subject: Retour de Madrid/Back from Madrid - Nouveau GTE/New EWG "18-MEED-BITD/EDEM-EDTIB"

Messieurs les Présidents et Secrétaires généraux,

De retour de Madrid, je tiens à vous redire tout le plaisir que j'ai eu à y retrouver les représentants des associations EuroDéfense et à travailler avec vous, et je remercie encore ED-Espana pour l'excellente réunion 2012.

Je saisis cette occasion, sans attendre la diffusion du Relevé de décisions du Conseil, pour vous adresser ci-dessous les conclusions présentées par le groupe "MEED-BITD" et approuvées par le Conseil. Ce groupe, dirigé par ED-France, est désormais identifié sous l'appellation "GTE 18 - MEED-BITD".

Dear Presidents and General Secretaries,

Back from Madrid, I want to say again how much delighted I have been to see there the representatives of the EuroDéfense associations and to work with you, and I do thank again ED-Espana for this excellent meeting 2012.

I take this opportunity, without waiting for the Statement of decisions taken by the Council, to send you below the conclusions submitted by the group "EDEM-EDTIB" and approved by the Council. That group, led by ED-France, is now identified as "EWG 18 - EDEM-EDTIB".

Très amicalement.

Jean Guinard

12 09 19 Madrid International Meeting

EDEM BITD EWG REPORT TO PRESIDENTS

This EWG had met for the first time during the BRUSSELS IMED

ED: B-D-Fr-P-SP-UK were attending.

We met yesterday in Madrid with the same attendants except UK.

We analyse the results of the audience with a COM representative : very unsuccessful ;

We studied two documents :

- one sent by ED-NL : "Need for a European defense industry" established by the European Economics and Social Committee ;
- a second : « Les enjeux de la Recherche Technologique » by ED-Fr written by ED-Fr (Jean Rannou) which deals with the different stages from basic studies to the product development.

and we concluded for the necessity to ask the COMMISSION for financing R&T unto the orientation for application –Defense or Civil Industry- would be clear and definitive.

To reach this goal we agreed the following process, I am now submitting for approval to the Presidents.

1. I will send to national EDs copies of the two documents ASAP;
2. We will exchange comments, remarks and suggestions < 12 11 15 ;
3. ED-Fr will write a synthesis of the different answers and organise a one day meeting in Paris < 13 01 30 ;
4. a definitive document will be sent to Secrétaire General < 13 03 30 for discussion and approval during their spring meeting.
